MAKING OFFERS
FOR THE

TERMS AND CONDITIONS

1. Sealed bids will be opened in the Commissioner's Conference Room, Canadian County Courthouse, 201 N. Choctaw Avenue, El Reno, Oklahoma, at the time and date shown on the invitation to bid form.
2. Late bids will not be considered. Bids must be received in sealed envelopes (one to an envelope) with bid number and closing date written on the outside of the envelope.
3. Unit prices will be guaranteed correct by the bidder.
4. Firm prices will be F.O.B. destination.
5. Purchases by Canadian County, Oklahoma, are not subject to state or federal taxes.
6. This bid is submitted as a legal offer and any bid when accepted by the County constitutes a firm contract.
7. Oklahoma laws require each bidder submitting a bid to a county for goods or services to furnish a notarized sworn statement of non-collusion. A form is supplied below.
8. Bids will be firm until 08/14/2025
(DATE)

AFFIDAVIT: I, the undersigned, of lawful age, being first duly sworn on oath say that he (she) is the agent authorized by the bidder to submit the above bid. Affiant further states that the bidder has not been a party to any collusion among bidders in restraint of freedom of competition by agreement to bid at a fixed price or to refrain from bidding; or with any state official or employee as to quantity; quality or price in the prospective contract or any other terms of said prospective contract; or in any discussions between bidders and any state official concerning exchange of money or other thing of value for special consideration in the letting of a contract; that the bidder/contractor has not paid, given or donated or agreed to pay, give or donate to any officer or employee of the State of Oklahoma (or other entity) any money or other thing of value, either directly or indirectly in the procuring of the award of a contract pursuant to this bid.

~ SPECIFICATIONS ~

Cement Slurry / County Commissioners

The bid will be good for a period beginning the date of awarding until December 31, 2025.

The County Commissioners are seeking bids for Cement Slurry.

Specifications:

CEMENT SLURRY FOR SOIL STABILIZATION

Price per DRY/TON:

- \$ _____ Quadrant 1: Canadian Rd to Calumet Rd / Waterloo Rd to I-40
- \$ _____ Quadrant 2: Calumet Rd to Highway 81 / Waterloo Rd to I-40
- \$ _____ Quadrant 3: Highway 81 to County Line Rd / Waterloo Rd to I-40
- \$ _____ Quadrant 4: Canadian Rd to Calumet Rd / I-40 to 89th St SW
- \$ _____ Quadrant 5: Calumet Rd to Highway 81 / I-40 to 104th St SW
- \$ _____ Quadrant 6: Highway 81 to County Line Rd / I-40 to 134th St SW

Map on page 3

SPECS FOR CEMENT SLURRY:

DESCRIPTION

This material shall be delivered and applied into or onto the subgrade soil by the supplier at the specified rate determined by the County. Prior to delivery and application, the Supplier may be required to provide cement samples for laboratory testing to be mixed with native subgrade soil from the project site. The County will perform the required work to prepare the subgrade soil for application of the cement slurry, mix the cement slurry into the soil and perform the final shaping and compaction of the cement slurry modified subgrade soil.

MATERIALS

Cement shall conform to the requirements of ASTM C150/150M. Cement powder being used for slurry shall be stored in a weatherproof storage unit to prevent lumps, caking of cement and contamination of any foreign matter that may be deleterious to slurry mix.

The slurry mix shall contain a minimum of 55% cementitious material by mass.

The slurry mix shall contain a stabilizing agent capable of maintaining a homogenous mixture of cementitious material, in water, for a minimum of four hours after it has been batched.

MATERIAL TESTING

If tested, a 500 ml portion of the slurry will be removed from the middle of the load. The slurry suspension will be monitored with no vibration or agitation at ambient temperature for 30 minutes. Little or no separation of liquid or solid should occur. The Marsh Funnel Viscosity of the slurry shall be a minimum of 60 seconds when measured according to ASTM D6910

EQUIPMENT

The slurry plant shall be a hydraulic/pneumatic mixing plant with monitoring devices to regulate flow rates and line pressures. Slurry proportion shall be regulated by calibrated scales. All components of the slurry solution shall be mixed using a high energy static mixing apparatus. All mechanical mixing must be pump driven. Lime slaking tanks, paddle driven mixers and other similar technology shall not be employed.

The slurry plant should provide safe and easy access for the Engineer to obtain samples.

The cement slurry shall be delivered to the project site in a non-baffle tank vehicle that does not recirculate or agitate the slurry material by any means other than the motion of the vehicle in normal movement. Application of the cement slurry shall be uniformly placed onto or into substrate soil. The vehicle that places the slurry shall spread controlled slurry within a given area. Tickets shall be generated through the function of calibrated plant scales for the amount (per ton) of dry cementitious product delivered to the project site.

MEASUREMENT AND PAYMENT

Cement slurry for soil stabilization shall be measured by the dry ton of cement delivered and applied to the subgrade soil and shall include cement samples for laboratory testing. The County shall provide the supplier with water for slurry vehicle, tankers and an area to clean slurry vehicle

The bid will be good for a period beginning the date of awarding until December 31, 2025.
