**FY 2019 Plan Narrative  
Cleveland County**

**Cleveland County Community Sentencing Planning Council is requesting funding for FY 2019 in the amount of \$145,318.48.**

Community Sentencing continues to thrive as a successful diversionary program in Cleveland County. We have seen participants become productive citizens and have experienced great community support and positive collaboration between law enforcement, treatment providers, and stakeholders.

The program also continues to address addiction and criminal thinking with supervision, substance abuse and mental health treatment, education, job skills, accountability, and structure within the community. It also allows the offender to give back to the community through community service. All this in turn results in Community Sentencing being fiscally responsible, having a greater probability of decreasing offenders' recidivism and at the same time reducing the incarceration rate.

The support of our legislators is critical to this vital criminal justice program.

**Targeted Population - 125**

- The local Planning Council has determined that there should be 125 offenders receiving services during FY 2019.
- 100% of offenders considered for Community Sentencing will undergo an LSI assessment.
- 100% of the offenders in the local system are projected to need and receive substance abuse treatment and/or cognitive behavior education.
- 100% of the offenders in the local system are projected to need and be placed under supervision.

### **System Community Punishments/Treatment Conditions**

#### ***Weekly Dockets-***

These dockets are held as needed and are used for sentencing offenders into the program, Motions to Revoke, and Motions to Accelerate.

#### ***Monthly Review Dockets-***

Dockets are held monthly for all participants. Offenders are required to be present in court where their progress in the program is reviewed. Sanctions are ordered for Rules and Conditions violations and incentives awarded for positive behaviors and accomplishments in the program.

#### ***AA/NA requirements each week-***

12-step meetings are required for participants if applicable and used as an increased treatment contact. The idea is to occupy the offenders' free time with positive reinforcement toward their treatment goals. AA/NA also provides aftercare support for a participant when he or she is no longer in substance abuse treatment.

#### ***Community Service hours-***

Community service hours are monitored by supervision. Most offenders sentenced into the program are required to give back to the community by completing 120 hours of community service.

#### ***Mental Health Evaluation and Treatment-***

A clinical psychologist contracts with Cleveland County Community Sentencing to provide mental health counseling which includes individual therapy and anger management groups. Also offered is crisis intervention for clients referred by other substance abuse treatment providers as well as our Probation Officers.

#### ***Outpatient treatment requirements-***

Each offender that requires substance abuse treatment is ordered to treatment providers in Cleveland County. Clients who relapse are staffed by the treatment team to determine what triggered the relapse and what available resources and skills are needed to address issues in the future. Treatment plans are adjusted to reflect possible solutions.

#### ***Drug testing-***

A random number of required drug tests are utilized as deterrents and vary with each client.

#### ***24-hour Jail Confinement from 1 to 30 days-***

All offenders sanctioned to confinement will be sent to the Cleveland County Detention Center.

#### ***Sober living-***

Several Oklahoma sober living homes and facilities are available as needed. Some examples would be Oxford Houses, HOW Foundation, and Cornerstone Sober Living.

***Residential treatment-***

If funds are available, residential treatment is another option utilized. This is an inpatient atmosphere with program lengths from usually 45 days to 6 months. Some clients in need of this type of treatment are admitted on an indigent basis and some use private insurance.

***Treatment team-***

The Community Sentencing treatment team continues to meet on a weekly basis to discuss offender progress in the program, sanctions and incentives. The treatment team includes representation from the District Attorney's office, treatment providers, supervision, and Community Sentencing staff.

**Description of Local Sentencing System**

***What is the definition of success?***

The Cleveland County Planning Council feels that the Department of Corrections' definition of an unsuccessful outcome as being limited to offenders who are sent to prison is too narrow a definition. Based on DOC's definition, Cleveland County's success rate would be 78% while the planning council's defined success rate would be 68%.

Since Cleveland County's inception in August 1997, the system has dealt with 717 offenders YTD with 649 cases closed. Of these, 438 (67%) have successfully completed their sentences and returned to society. 144 (22%) have been revoked or accelerated to prison. 57 (9%) have been revoked or accelerated unsuccessfully out of the program to county jail, other programs, or supervision expired while on absconder status. 10 (2%) died while in the program. Currently, there are 68 active offenders.

***How successful is the council's program?***

As far as definitions of success, the Council expects those individuals who receive a Community Sentence to excel under their Rules and Conditions of Probation. The Council expects each participant to undergo necessary treatment and become employed or attend school and abstain from the use of alcohol or other illegal substances. Obviously, the Council is not so naïve as to think that all individuals placed on a Community Sentence will successfully complete the program. As noted above, some individuals have had Motions to Revoke or Accelerate filed against them and are no longer in the Community Sentencing program. We have seen certain offenders finish their community service hours and then gain employment at the location where they completed their community service. We feel this is a positive step towards the offender's recovery.

***What are the council's expectations of supervision provided to Community Sentencing offenders? Are those expectations being met?***

Close supervision and case management of offenders is at the core of the Community Sentencing program. In order to achieve this, the Cleveland County Planning Council requested a fulltime Probation Officer devoted exclusively to supervising Community Sentencing offenders. Due to increasing numbers, the planning council requested a second supervision officer to ensure continued success. To solve this issue, a contract with Court Related Services was established to continue the same conscientious supervision required to meet the expectations of our local Planning Council.

**Describe the council's method of allocating resources for services.**

The council's method for allocating resources involves assessing local resources and connecting these resources to the needs of the offender population.

**Utilization of Other Funding Sources**

**Tribal Resources**

- Provide mental health services
- Provide substance abuse services - outpatient and inpatient
- Provide Emergency Medical Services  
(Ambulance and hospital expenses during 24 hour confinement)

**Veterans Administration**

- Provide Mental Health services
- Provide substance abuse services - outpatient and inpatient out of state
- Provide Medical Services - Prevention/Emergency

**Okla. State Department of Mental Health**

Provides only limited services to Community Sentencing offenders if already assigned to local substance abuse provider

**State Vocational/ Technical**

Client receives services based on student application/financial aid

**Identify any practices implemented by the program that enhances the fiscal efficiency of the system without compromising its effectiveness.**

A financial voucher data base is maintained by the Local Administrator's office. The voucher system provides the treatment provider and the Local Administrator an opportunity to ensure that offenders are making progress in their treatment programs and necessary adjustments are made to maximize offender success and accountability.

**What difficulties are being encountered?**

1. The continued difficulty faced by the Local Planning Council is the limitation of \$27.00 per day that can be paid to county jails for the incarceration of Community Sentencing offenders. Thorough documentation by the Cleveland County Detention Center shows their actual cost to be much higher per day per offender. Even though the Local Planning Council has the desire to make up the deficit from the Council's administrative fees, DOC auditors have advised the Council that such a payment would be in violation of state law. The lower State rate continues to be an area of concern for the council.
2. Clients that live in rural areas have ongoing transportation issues.

**Local Record Keeping Systems**

1. The Cleveland County Court Clerk's office will maintain all court records for the local sentencing system.

2. **The Judicial Offices of the District Court and the District Attorney's office** will maintain records that they consider necessary regarding the local Community Sentencing system.
3. **The Probation and Parole Division of the Department of Corrections and Court Related Services** will maintain necessary records on local sentencing system offenders sentenced to supervision. This will include accurate chronological entries and special reports. Offender sentence compliance records will also be maintained for the purposes of disciplinary sanctions and incentives.
4. **The Cleveland County Sheriff's office** will maintain records on any offenders confined in the Cleveland County Detention Center under a disciplinary sanction.
5. **Treatment providers** will maintain records on offender attendance, program progress, participation, and assessment data.
6. **The Local Community Sentencing office** will operate a management information system for the local sentencing system. This management information system will maintain information on, but not be limited to: local system accounting, local system revenue, local system budget status, intake information, compliance with court orders, offender progress in treatment, disciplinary sanctions and incentives, offender arrests, and service provider contract compliance.

#### **Local System Administrative Structure**

1. **The Cleveland County Planning Council, in cooperation with the District Court and the District Attorney, will oversee the management and the operations of the local community sentencing system.**
2. **Local system oversight will include but not be limited to: regular assessment of services and sanctions of the local system and their effect on public safety, monitoring sentencing practices for information and resource management, and ensuring that the local system operates in a cost-effective manner by providing sanctions and services based on offender need and risk for re-offending.**
3. **The Community Sentencing Division will provide all necessary administrative and technical assistance in the oversight of the system.**
4. **The Cleveland County Community Sentencing system with support from the local Planning Council has decided to adopt a Performance Contract. The Defense Attorney will review the Performance Contract with the potential defendant before sentencing to ensure that he or she understands and agrees to abide by all Community Sentencing rules and regulations.**

6. Have caseloads consisting exclusively of Community Sentencing offenders, provided that the individual officer caseload is commensurate with a standard probation caseload.

**The Cleveland County Sheriff's Office will:**

1. Detain in the Cleveland County Detention Center any offender court-ordered to confinement as a disciplinary sanction.
2. Submit invoices to the local Community Sentencing Division office for processing to cover the cost of offenders confined under a disciplinary sanction:
3. Maintain any records and reports that are required by contract and/or the Planning Council.

**The Service Providers will:**

1. Provide offenders with services and/or treatment ordered by the Court in accordance with the terms of the contract between the service provider and the Oklahoma Department of Corrections.
2. Maintain records on offender attendance, program progress, and participation.
3. Maintain any records and reports required by contract and/or the Planning Council.
4. Submit invoices to the local Community Sentencing Division office for processing.
5. When utilized, collect offender co-payment based on offender's ability to pay by applying offender income to a sliding scale.
6. Provide the supervising authority with intake information and reports on offender progress and sentence non-compliance.

**The Local Community Sentencing office will:**

1. Provide ongoing technical advice and administrative assistance to the Planning Council and the local community sentencing system.
2. Review and process service provider invoices for payment. Review voucher requests to ensure compliance with established updated treatment plans.
3. Monitor service provider contract compliance and ensure accurate and timely reporting of offender and sentence information for the Planning Council.
4. Maintain a management information system for the local Community Sentencing system.
5. Provide the Planning Council with reports on the status of the local community sentencing system as requested by the Council. These reports will include

**Statement of Public Support**

From the beginning, the Planning Council recognized the importance of community involvement and support in the formulation of our community corrections system. Cleveland County Community Sentencing has support from judges, attorneys, educators, elected officials, and citizens from all aspects of community life. They believe that appropriate alternatives to incarceration which give offenders the opportunity to serve their sentence in the community where they can access needed services to address addiction and criminal thinking, be employed, and at the same time give back to the community through community service results in Community Sentencing being fiscally responsible, having a greater probability of decreasing offenders' recidivism and at the same time reducing the incarceration rate.

4. Thomas Sasser, Assistant District Attorney, **updated** on the October, November and December 2017 activity of Community Sentencing in the District Attorney's Office. He said that there were 25 LSI Orders and 14 people have pled into the program.

5. Bobby Brinkley presented **Review Status on Bench Warrant Executions, Arrest of Absconders and Status Report**. He said that in order to keep the numbers up they are taking higher risk people, but not at a risk to the public. Debi Cox said they stopped screening out of concern their budget would be cut due to lack of sentencing.

**CLEVELAND COUNTY COMMUNITY SENTENCING  
OCTOBER, NOVEMBER, DECEMBER AWOL REPORT  
JANUARY 9, 2018**

1. P.O. repeatedly attempts to contact the client by mail, telephone, and in person by conducting home visits for approximately 30 days.
2. P.O. checks local jails and hospitals.
3. P.O. contacts family, friends and employers requesting them to pass along the message to contact their P.O.
